Professional Mischief

Then-Now	Acme Pancakes > Built a syrup router for peak waffle traffic. > Reduced meeting confusion by writing things down. > Merged three dashboards into one less mysterious dashboard.	Pancake Architect
Before-After	Tiny Button Bureau > Documented which buttons actually did things. > Launched a checkbox with excellent manners. > Led the search for one suspicious dropdown. > Split one giant workflow into smaller ones. > Automated a process powered by calendar panic. > Shared knowledge, snacks, and room secrets.	Button Enthusiast
Long Ago	Widget Co-op > Built a platform for confident widget movement. > Translated ancient setup notes into sentences. > Added support for many widgets at once. > Designed widget create, update, and archive flows.	Widget Wrangler
Thenish	Invoice Volcano > Turned vague requests into less vague tickets. > Expanded boldly into the next spreadsheet tab. > Blocked impossible coupons and round-number schemes.	Lava Engineer
Once	Sock Lab > Built a dashboard for ambitious socks. > Added a progress bar to polished confusion.	Unusual Intern

Questionable Talents

Languages	Keyboard, snack, SQL, meeting
Backend	Clouds, queues, tiny services
Domains	Buttons, spreadsheets, waffles
